EDUCATION

B.Tech Computer Science & Engineering

Data Science

XYZ Institute of Technology, Pune

2022 - 2026 | CGPA: 8.7 / 10

TECHNICAL SKILLS

Languages: Python, SQL

Backend: FastAPI, REST APIs, SQLAlchemy

Databases: PostgreSQL, SQLite, pgvector

Data & ML: NumPy, Pandas, scikit-learn

Dev Tools: Git, Docker, Linux, pytest

CERTIFICATIONS

AWS Certified Solutions Architect - Associate

Amazon Web Services · 2025

Google Data Analytics Certificate
Coursera · 2024

ADDITIONAL

Backend development · Machine learning · API development · Database optimization · Data analysis

SUMMARY

Final-year B.Tech Computer Science student specializing in Data Science with hands-on experience building backend APIs, database-driven applications, and machine learning projects. Comfortable working with Python, FastAPI, PostgreSQL, SQLAlchemy, and modern development tools.

EXPERIENCE

Backend Developer Intern — DataBridge Solutions

June 2025 - August 2025

- Developed and maintained REST APIs using FastAPI for production-facing backend services.
- Worked with PostgreSQL and SQLAlchemy to design queries and improve database performance.
- Reduced query latency by 40% through targeted database indexing and query optimization.
- Built a pytest-based test suite covering approximately 80% of API endpoints.
- Used Git and Linux-based development workflows for code management and testing.

PROJECTS

ResumeRank — AI Hiring Platform

- Built semantic resume search across 500+ resumes using pgvector and sentence-transformers.
- Integrated an LLM-based scoring workflow through the Groq API to support resume evaluation.
- Designed the backend using Python, FastAPI, PostgreSQL, and pgvector.

SpendSense — Personal Finance Tracker

- Developed a full-stack personal finance application with React and FastAPI.
- Implemented transaction categorization using a fine-tuned machine learning classifier.
- Used SQLite for application data storage and built API endpoints for frontend integration.

CORE AREAS

Backend Development · REST API Design · PostgreSQL · SQL Optimization · Machine Learning · Data Processing · Testing
